CBS ArcSafe® Introduces RSA-230B for Eaton Series G – LG Frame

Denton, TX, September 18, 2018 — [CBS ArcSafe®](#), a leading manufacturer of remote racking and switching solutions for low- and medium-voltage switchgear, introduces its remote switch actuator (RSA) for the Eaton Series G – LG frame molded case circuit breaker (MCCB). The lightweight, portable CBS ArcSafe RSA-230B allows technicians to remotely close or trip the circuit breaker from a safe distance of up to 300 feet while stationed outside the arc-flash boundary.

Installation and operation do not require any modifications to existing electrical equipment, thanks to CBS ArcSafe's magnetic latching system. The RSA-230B is compatible with 100–630 A, 240–600 V AC flush-mount Eaton Series G MCCBs with one to four poles, including LG, LGE, LGS, LGH, LGU, and LGX. Typical applications include switching and protection of low-voltage AC and DC systems with high-available fault current. The RSA-230B is a cost-effective solution for keeping operators safe when compared with arc-flash mitigation alternatives.

Optional features include a radio remote with a range up to 300 feet, a 24 V DC LED light, a wireless video camera system with an LCD monitor, and a rugged protective case assembly. All RSA units are portable, with fast and easy setup. They offer mechanical and/or electrical safety protection, adjust to fit unique electrical equipment configurations, reduce requirements for personal protection equipment, and meet NFPA 70E arc-flash safety compliance standards.

All CBS ArcSafe products are manufactured in the United States at our facilities in Denton, TX, and Charleston, WV. For more information, visit [CBSArcSafe.com](#) or call 877-4-SAFETY.

About CBS ArcSafe

CBS ArcSafe offers the electrical industry's largest inventory of remote racking and switching solutions for low- and medium-voltage switchgear. The systems operate without modification to existing electrical equipment and allow technicians to operate equipment from a safe distance of up to 300 feet. All CBS ArcSafe equipment is manufactured in the United States at our Denton, TX, and Charleston, WV, facilities. CBS ArcSafe offers 24/7/365 emergency support and is happy to develop custom remote racking and switching solutions for customers. Learn more at [CBSArcSafe.com](#) or call us toll-free at 877-4-SAFETY.
