CBS ArcSafe® Introduces RSA-97 for Square D Model 4 MCC Bucket

Denton, TX, November 20, 2018 — <u>CBS ArcSafe</u>®, a leading manufacturer of remote racking and switching solutions for low- and medium-voltage switchgear, introduces the RSA-97 remote switch actuator for the Square D Model 4 motor control center (MCC) bucket. The lightweight, portable CBS ArcSafe RSA-97 allows technicians to remotely close or trip the circuit breaker from a safe distance of up to 300 feet while stationed outside the arc-flash boundary.

Installation and operation do not require any modifications to existing electrical equipment, thanks to CBS ArcSafe's magnetic latching system. The RSA-97 is compatible with Square D Model 4, sizes 1–4. Typical applications include switching and protection of squirrel-cage, wound-rotor, and synchronous motors. The RSA-97 is a cost-effective solution for keeping operators safe when compared with arc-flash mitigation alternatives.

Optional features include a radio remote with a range up to 300 feet, a 24 V DC LED light, a wireless video camera system with an LCD monitor, and a rugged protective case assembly. All RSA units are portable, with fast and easy setup. They offer mechanical and/or

CBS ArcSafe offers the electrical industry's largest inventory of remote racking and switching solutions for low- and medium-voltage switchgear. The systems operate without modification to existing electrical equipment and allow technicians to operate equipment from a safe distance of up to 300 feet. All CBS ArcSafe equipment is manufactured in the United States at our Denton, TX, and Charleston, WV, facilities. CBS ArcSafe offers 24/7/365 emergency support and is happy to develop custom remote racking and switching solutions for customers. Learn more at CBSArcSafe.com or call us toll-free at 877-4-SAFETY.
