## CBS ArcSafe® Introduces RSA-97B for Square D Model 4 Motor Control Center

Denton, TX, August 20, 2019 — [CBS ArcSafe®](http://CBSArcSafe.com), a leading manufacturer of remote racking and switching solutions for low- and medium-voltage switchgear, introduces the RSA-97B remote switch actuator for the Square D Model 4 motor control center (MCC). The lightweight, portable CBS ArcSafe RSA-97B allows technicians to remotely close or trip the MCC from a safe distance of up to 300 feet while stationed outside the arc-flash boundary.

Installation and operation do not require any modifications to existing electrical equipment, thanks to CBS ArcSafe's magnetic latching system. The RSA-97B is compatible with the Square D Model 4 MCC, size 5 and main, recessed mounted MCCs, as well as flange-mounted disconnects. Typical applications include protection and control of low-voltage MCCs. Compared with arc-flash mitigation alternatives, the RSA-97B is a cost-effective solution for keeping operators safe.

Optional features include a radio remote with a range up to 300 feet, a 24 V DC LED light, a wireless video camera system with an LCD monitor, and a rugged protective case assembly. All RSA-97B units are portable, with fast and easy setup. They offer mechanical and electrical safety protection, adjust to fit unique electrical equipment configurations, reduce requirements for personal protection equipment, and meet NFPA 70E arc-flash safety compliance standards.

All CBS ArcSafe products are manufactured in the United States at our facilities in Denton, TX, and Charleston, WV. For more information, visit [CBSArcSafe.com](http://CBSArcSafe.com) or call 877-4-SAFETY.

### About CBS ArcSafe

CBS ArcSafe offers the electrical industry's largest inventory of remote racking and switching solutions for low- and medium-voltage switchgear. The systems operate without modification to existing electrical equipment and allow technicians to operate equipment from a safe distance of up to 300 feet. All CBS ArcSafe equipment is manufactured in the United States at our Denton, TX, and Charleston, WV, facilities. CBS ArcSafe offers 24/7/365 emergency support and is happy to develop custom remote racking and switching solutions for customers. Learn more at [CBSArcSafe.com](http://CBSArcSafe.com) or call us toll-free at 877-4-SAFETY.
