CBS ArcSafe® Introduces RRS-3 FlashGard for Eaton FlashGard MCCs

Denton, TX, January 15, 2020 — CBS ArcSafe®, a leading manufacturer of remote racking and switching solutions for low- and medium-voltage switchgear, introduces the RRS-3 FlashGard, a single-application remote racking solution (RRS) for Eaton FlashGard motor control centers (MCCs). The lightweight, portable CBS ArcSafe RRS-3 FlashGard allows technicians to remotely install and remove an MCC from a safe distance of up to 300 feet outside the arc-flash boundary.

Installation and operation do not require any modifications to existing electrical equipment, thanks to CBS ArcSafe's magnetic latching system. The RRS-3 FlashGard is compatible with the Cutler-Hammer/Eaton Intelligent Technologies MCC. Typical applications for the FlashGard MCC include the oil and gas, waste and wastewater, and mining industries.

Optional features include 25-foot pendant extensions, a 24 V DC LED light, a wireless video camera system with an LCD monitor, and a rugged protective case assembly. All RRS-3 units are portable, with fast and easy setup. They offer mechanical and/or electrical safety protection, adjust to fit unique electrical equipment configurations, reduce requirements for personal protection equipment, and meet NFPA 70E arc-flash safety compliance standards.

All CBS ArcSafe products are manufactured in the United States at our facilities in Denton, TX, and Charleston, WV. For more information, visit CBSArcSafe.com or call 877-4-SAFETY.

About CBS ArcSafe
CBS ArcSafe offers the electrical industry's largest inventory of remote racking and switching solutions for low- and medium-voltage switchgear. The systems operate without modification to existing electrical equipment and allow technicians to operate equipment from a safe distance of up to 300 feet away. All CBS ArcSafe equipment is manufactured in the United States at our Denton, TX, and Charleston, WV, facilities. CBS ArcSafe offers 24/7/365 emergency support and is happy to develop custom remote racking and switching solutions for customers. Learn more at CBSArcSafe.com or call us toll-free at 877-4-SAFETY.
