

### DESCRIPTION

The **CBS ArcSafe® RSA-119** remote switch actuator (RSA) is designed to operate the Merlin Gerin insulated case circuit breaker (ICCB) without having to modify any existing electrical equipment thanks to CBS ArcSafe's magnetic latching system. The lightweight, portable RSA-119 allows technicians to remotely close or trip the ICCBs from a safe distance of up to 300 feet while remaining stationed outside the arc-flash boundary. The RSA-119 is compatible with all closed-door Mechanical Products (MP) breakers. Typical applications include low-voltage electrical distribution for buildings, hospitals, and data centers. Designed, manufactured, and assembled in the United States, all RSA units are portable, fast, and easy to set up; offer mechanical and/or electrical safety protection; are adjustable to fit unique electrical equipment configurations; reduce the requirements for personal protection equipment; and help customers with NFPA 70E arc-flash safety compliance. Optional features include radio remote with range of up to 300 feet, 24 V DC LED light, wireless video camera system with LCD monitor, and rugged protective case assembly.

### SPECIFICATIONS

<b>WEIGHT:</b>	37 lbs.
<b>DIMENSIONS:</b>	5.5"L x 19.5"W x 19"H
<b>POWER CONSUMPTION:</b>	50 W
<b>OPERATING DISTANCE:</b>	25–300 feet
<b>COMPATIBILITY:</b>	All closed-door MP breakers
<b>CONTROL/POWER SOURCE:</b>	CBS ArcSafe® RSO-III Control Console

### OVERVIEW

- Remote operation from up to 300 feet
- Lightweight, portable, and adjustable
- Simple setup; no equipment modification required
- Reduces or eliminates need for arc-flash hazard suits
- Designed, manufactured, and assembled in the United States
