## CBS ArcSafe® Introduces RRS-3 Selpact for Merlin Gerin Selpact Air Circuit Breakers

Denton, TX, October 15, 2018 – [CBS ArcSafe®](http://CBSArcSafe.com), a leading manufacturer of remote racking and switching solutions for low- and medium-voltage switchgear, introduces its single-application remote racking solution (RRS) for Merlin Gerin Selpact air circuit breakers. The lightweight, portable CBS ArcSafe RRS-3 Selpact allows technicians to remotely install and remove circuit breakers from a safe distance of up to 300 feet away while remaining stationed outside the arc-flash boundary.

Installation and operation do not require any modifications to the existing electrical equipment, thanks to CBS ArcSafe's magnetic latching system. The RRS-3 Selpact is compatible with 1600 A, 2000 A, 2500 A, and 3200 A Merlin Gerin Selpact air circuit breakers, including the DN2, DN2-H, DS2, DS2-H, DR2, and DRS-2. Typical applications include protection and switching of three-phase, four-wire power systems up to 660 V AC.

Optional features include 25-foot pendant extensions, a 24 V DC LED light, a wireless video camera system with an LCD monitor, and a rugged protective case assembly. All RRS-3 units are portable, with fast and easy setup. They offer mechanical and/or electrical safety protection, adjust to fit unique electrical equipment configurations, reduce requirements for personal protection equipment, and meet NFPA 70E arc-flash safety compliance standards.

All CBS ArcSafe products are manufactured in the United States at our facilities in Denton, TX, and Charleston, WV. For more information, visit [CBSArcSafe.com](http://CBSArcSafe.com) or call 877-4-SAFETY.

### About CBS ArcSafe

CBS ArcSafe offers the electrical industry's largest inventory of remote racking and switching solutions for low- and medium-voltage switchgear. The systems operate without modification to existing electrical equipment and allow technicians to operate equipment from a safe distance of up to 300 feet away. All CBS ArcSafe equipment is manufactured in the United States at our Denton, TX, and Charleston, WV, facilities. CBS ArcSafe offers 24/7/365 emergency support and is happy to develop custom remote racking and switching solutions for customers. Learn more at [CBSArcSafe.com](http://CBSArcSafe.com) or call us toll-free at 877-4-SAFETY.
