

DESCRIPTION

The **CBS ArcSafe® RSA-97** remote switch actuator (RSA) is designed to operate the Square D Model 4 motor control center (MCC) bucket with no modification to existing electrical equipment, thanks to CBS ArcSafe's magnetic latching system. The lightweight, portable RSA-97 allows technicians to remotely close or trip the Square D Model 4 MCC bucket from a safe distance of up to 300 feet while stationed outside the arc-flash boundary. The RSA-97 is compatible with Square D Model 4, sizes 1-4. Typical applications include switching and protection of squirrel-cage, wound-rotor, and synchronous motors. Designed, manufactured, and assembled in the United States, all RSA units are portable, with fast and easy setup. They offer mechanical and/or electrical safety protection, adjust to fit unique electrical equipment configurations, reduce requirements for personal protection equipment, and help customers with NFPA 70E arc-flash safety compliance. Optional features include a radio remote with range up to 300 feet, a 24 V DC LED light, a wireless video camera system with an LCD monitor, and a rugged protective case assembly.

SPECIFICATIONS

WEIGHT:	7 lbs.
DIMENSIONS:	7.7"H x 5.9"W x 2.5"D
POWER CONSUMPTION:	30 W
OPERATING DISTANCE:	25-300 feet
COMPATIBILITY:	Square D Model 4 MCC bucket, sizes 1-4
CONTROL/POWER SOURCE:	CBS ArcSafe® RSO-I AR control console

OVERVIEW

- Remote operation from up to 300 feet away
- Lightweight and portable for hard-to-access areas
- Simple setup; no equipment modification required
- Reduces or eliminates need for arc-flash hazard suits
- Designed, manufactured, and assembled in the USA
