CBS ArcSafe® Introduces RSA-152G for Boltswitch T Series Bolted Pressure Switch

Denton, TX, July 23, 2019 — [CBS ArcSafe®](http://CBSArcSafe.com), a leading manufacturer of remote racking and switching solutions for low- and medium-voltage switchgear, introduces the RSA-152G remote switch actuator for the Boltswitch T Series. The lightweight, portable CBS ArcSafe RSA-152G allows technicians to remotely close or trip the bolted pressure switch from a safe distance of up to 300 feet while stationed outside the arc-flash boundary.

Installation and operation do not require any modifications to existing electrical equipment, thanks to CBS ArcSafe's magnetic latching system. The RSA-152G is compatible with the 400-1200 A Boltswitch T Series, including T225-228, T265-268, T325-328, and T365-368. Typical applications include low-voltage power control and distribution. Compared with arc-flash mitigation alternatives, the RSA-152G is a cost-effective solution for keeping operators safe.

Optional features include a radio remote with a range up to 300 feet, a 24 V DC LED light, a wireless video camera system with an LCD monitor, and a rugged protective case assembly. All RSA units are portable, with fast and easy setup. They offer mechanical and/or electrical safety protection, adjust to fit unique electrical equipment configurations, reduce requirements for personal protection equipment, and meet NFPA 70E arc-flash safety compliance standards.

All CBS ArcSafe products are manufactured in the United States at our facilities in Denton, TX, and Charleston, WV. For more information, visit CBSArcSafe.com or call 877-4-SAFETY.

About CBS ArcSafe

CBS ArcSafe offers the electrical industry's largest inventory of remote racking and switching solutions for low- and medium-voltage switchgear. The systems operate without modification to existing electrical equipment and allow technicians to operate equipment from a safe distance of up to 300 feet. All CBS ArcSafe equipment is manufactured in the United States at our Denton, TX, and Charleston, WV, facilities. CBS ArcSafe offers 24/7/365 emergency support and is happy to develop custom remote racking and switching solutions for customers. Learn more at CBSArcSafe.com or call us toll-free at 877-4-SAFETY.
