

POWERED BY
M18 REDLITHIUM

DESCRIPTION

The **CBS ArcSafe® RSK-CGM.3** allows technicians to remotely operate Ormazabal CGM.3 switchgear from a safe distance while remaining stationed outside of the arc flash boundary. Installation and operation does not require any modifications to the existing electrical equipment.

The **CBS ArcSafe® RSK-CGM.3** is compatible with all configurations of Ormazabal CGM.3 switchgear. The **CBS ArcSafe® RSK-CGM.3** is a cost-effective solution for keeping operators safe when compared to other arc flash mitigation alternatives.

SPECIFICATIONS

WEIGHT:	17 lbs.
DIMENSIONS:	9.1" x 19.05" x 12.9" (W,H,D)
POWER CONSUMPTION:	100 W
OPERATING DISTANCE:	12-300' with line of sight
COMPATIBILITY:	Ormazabal CGM.3
CONTROL/POWER SOURCE:	CBS ArcSafe® RSO-IV-M18 control console

OVERVIEW

- Remote operation from up to 300 feet away
- Lightweight and portable for hard-to-access areas
- Simple setup, no equipment modification required
- Powered by Milwaukee M18™ REDLITHIUM™ Ion Battery Packs
- Quick installation and removal from gear
- Adjustable travel and locators to accommodate entire product line
- Reduces or eliminates need for arc flash hazard suits
- Eliminates all hazardous manual contact with gear during operation
- Designed, manufactured, and assembled in the USA
